CAREER OBJECTIVE

Motivated **Computer Science Engineering graduate** with practical experience in **MERN Stack development**, frontend optimization, and REST API integration. Seeking an **entry-level Software Developer** role to contribute to building **scalable, responsive web applications**, secure authentication flows, and performance-optimized systems while continuously enhancing technical expertise.

EDUCATION

B.Tech Computer Science Engineering, IFTM University CGPA: 7.5	2022 – 2026 Moradabad, India
Higher Secondary (12th), UP. Higher Secondary School Percentage: 74.9%	2019– 2020 Budaun, India
High School (10th), UP. Higher Secondary School Percentage: 81%	2021– 2022 Budaun, India

SKILLS

Languages JavaScript (ES6+), HTML5, CSS3, SQL	Frontend React.js, Bootstrap, Responsive Design	Backend Node.js, Express.js, REST APIs
Databases MongoDB, MySQL	Tools Git, GitHub, Postman, VS Code	Concepts MERN Stack, Authentication, CRUD Operations, API Integration

TRAINING & CERTIFICATION

MERN Stack Development Training

Ducat Foundation, Noida

- Completed **300+ hours** of hands-on training in **MERN Stack development**
- Developed multiple **full-stack applications** following industry-standard architecture
- Applied **UI/UX best practices**, improving application usability and responsiveness
- Implemented backend APIs with **authentication, data validation, and error handling**

PROJECTS

PORTFOLIO WEBSITE

MERN Stack

- Developed a **personal portfolio website** to showcase projects, skills, and professional experience.
- Implemented **secure authentication and dynamic project management** features.
- Built **RESTful APIs using Node.js and Express.js** for handling contact forms and data management.
- Designed a **responsive and modern UI using React.js**, ensuring smooth navigation across devices.
- Optimized website performance and improved loading speed using **component-level optimization**.

PETROL PUMP MANAGEMENT SYSTEM

MERN Stack

- Developed a **Petrol Pump Management System** to manage fuel inventory, sales records, and employee data.
- Implemented **secure login authentication** for admin and staff users.
- Designed **RESTful APIs using Node.js and Express.js** for fuel transactions and reporting.
- Created a **responsive dashboard using React.js** for monitoring sales and inventory.
- Optimized **MongoDB database schemas** to ensure efficient data storage and retrieval

DENOM TECH WEBSITE

MERN Stack

- Built a **dynamic company website** for Denom Tech to showcase services and product offerings.
- Implemented **interactive product listing and cart management functionality**.
- Developed **REST APIs using Node.js and Express.js** for handling product and user data.
- Designed a **responsive user interface using React.js** for better user experience.

ADDITIONAL ACTIVITIES

- Regularly practice **Data Structures & Algorithms**, focusing on arrays, strings, and recursion
- Build **mini-projects** to strengthen JavaScript and React fundamentals
- Actively participate in coding challenges and developer communities
- Continuously explore modern web development trends and best practices
